

## Product information | TECHNICAL DATA SHEET

### MTN SPRAYHANDLE

---

#### GENERAL DESCRIPTION

The MTN SprayHandle is a gun that facilitates the use of the spray can. It adapts to all types of MTN spray cans, providing comfort and avoiding finger fatigue. In addition, it keeps the product from making contact with your hands, avoiding stains on your body and clothes.

---

#### FEATURES

- Easy to set up and use
- Yellow and black
- Suitable for virtually all MTN spray cans
- Ergonomic shape
- Made of recyclable plastic

---

#### USAGE

- The SprayHandle is the equivalent to handling a spray paint gun, so its use extends to:
- The painting and varnishing of objects in general.
  - The application of aerosol products on large surfaces where thin coats are required.
  - Graffiti.

---

#### INSTRUCTIONS FOR USE

- Attach the SprayHandle holder to the neck of the spray can by pushing horizontally.  
Warning: do not apply force at an angle as the holder may break.
- Before use, pull the trigger so that the aerosol lets out a little gas.
- Pull the trigger with four fingers to save force.
- In case of disposal due to breakage, dispose of it in the yellow dumpster or whichever recycling dumpster it is according to your local regulations.
